General Meeting of Shareholders' Reference Materials

Matters to Be Resolved and Reference Items:

Proposals by the Company: Items 1-4

First Item

Appropriation of Retained Earnings

We propose that appropriation of retained earnings be performed as follows.

While ensuring that it retains sufficient internal reserves to fund measures for strengthening operations and promoting future business expansion, the Company has a fundamental policy of seeking to distribute dividends.

Specifically, the Company aims to pay dividends at a consolidated dividend on equity ratio (DOE) of approximately 3.0%, focusing on continuous and stable dividend distribution.

In accordance with this fundamental policy, based on the consideration of the Company's financial condition and its performance in the fiscal year under review, the Company proposes that the year-end dividend applicable to the fiscal year under review be ¥140 per share as described below, ¥30 per share higher than in the previous period.

Year-End Dividends

(1) Type of Dividend Asset	Money
(2) Allocation and Total Value of Dividend Assets	¥140 per share of common stock Total value of ¥7,999,239,220
(3) Effective Date of Retained Earnings Distribution	June 30, 2023

Second Item

Election of nine (9) Directors

The term of office of eight (8) Directors will expire at the conclusion of this Annual General Meeting of Shareholders. Accordingly, the Company proposes that nine (9) candidates be appointed to Director positions, adding one (1) Director for the purpose of strengthening management for the implementation of Integrated Thinking-based Management. The candidates for Director positions are as follows, and Mr. MATSUNAGA Morio, Mr. TOIDA Kazuhiko and Ms. TAKEGAWA Keiko are candidates for Outside Directors.

Regarding the Director candidates, the Nomination Review Committee chaired by an Outside Director has comprehensively examined their capabilities, knowledge, and character in consideration of their diversity, and considered those who can sufficiently fulfill their responsibilities as Directors, and the Board of Directors has determined the candidates based on these results.

Forth Item

Revisions to Restricted Stock Compensation Plan for Directors (excluding Outside Directors)

At the 96th Annual General Meeting of Shareholders held on June 29, 2021, shareholders approved an annual amount of compensation for the Directors of the Company of ¥720 million or less (excluding the employee salaries of the Directors who concurrently serve as employees). The shareholders also approved, within the above compensation limit, the total amount of monetary claims (hereinafter the "Monetary Compensation Claims") to be paid to Directors excluding Outside Directors (hereinafter the "Eligible Directors") for the granting of restricted stock and the total number of the Company's common shares to be issued or disposed of by the Company of ¥36 million or less and 12,600 shares per year, respectively.

The Company has recently reviewed its compensation plan for executives and proposes the following revisions to the details of the restricted stock compensation plan (hereinafter the "Plan") to provide the officers a greater incentive to continuously enhance corporate value through the achievement of the Company's ESG management targets by further clarifying the connection between executive compensation and ESG management and further promoting value sharing with shareholders to enable the Company to continue to contribute to society and remain an essential presence in the future.

More specifically, the Company will introduce the new ESG index-based restricted stock compensation, which will be added subject to the achievement of ESG indicators, will be introduced, in addition to the already introduced tenure-based restricted stock compensation. In both cases, continued service is a condition for lifting the transfer restrictions. ESG indicators are those related to the reduction of greenhouse gases, the promotion of job satisfaction and diversity and compliance.

Based on this agenda item, the total amount of the Monetary Compensation Claims to be paid to the Eligible Directors for the granting of restricted stock shall be within ¥50 million per year as tenure-based restricted stock compensation and within ¥50 million per year as ESG index-based restricted stock compensation, and the total annual amount shall be within ¥100 million (excluding the employee salaries of the Directors who concurrently serve as employees). In addition, the specific time of payment and allocation to each Eligible Director shall be determined by the Board of Directors in accordance with the rules established by the Compensation Committee. Compensation for granting restricted stock shall not be given to Outside Directors.

The current number of Directors is eight (including three Outside Directors), and if the Second Item, "Election of nine (9) Directors," is approved as originally proposed, the number of Directors will be nine (including three Outside Directors).

In addition, the Eligible Directors shall pay all the Monetary Compensation Claims detailed by this agenda item based on a resolution of the Board of Directors of the Company as property contributed in kind and receive the issuance or disposal of the Company's common shares. The total annual number of the Company's common shares to be issued or disposed of by this shall be 16,650 shares or less per year as tenure-based restricted stock compensation and 16,650 shares or less per year as ESG index-based restricted stock compensation, totaling a maximum of 33,300 shares per year (however, after the date of approval of this agenda item, if a share split (including the allotment of the Company's common shares without contribution) or consolidation of the Company's common shares is conducted, or if any other event requiring an adjustment to the total number of the Company's common shares to be issued or disposed of as the restricted stock arises, the total number of the Company's common shares shall be adjusted within a reasonable range).

The amount to be paid in per share shall be determined by the Board of Directors to the extent that the amount will not be particularly advantageous to the Eligible Directors who subscribe to the Company's common shares based on the closing price of the Company's common shares on the Tokyo Stock Exchange on the business day before the date of each resolution of the Board of Directors (if the trade is not made on that day, the closing price on the trading day immediately prior to that day). In addition, the issuance or disposal of the Company's common shares based on this system and the payment of the Monetary Compensation Claims as the property contributed in kind shall be subject to the conclusion of a restricted shares allotment contract, including the content below (hereinafter the "Allotment Contract") between the Company and the Eligible Directors.

The Company believes that the maximum amount of compensation in this agenda item, the total number of the Company's common shares to be issued or disposed of and other conditions for the granting of restricted stock to the Eligible Directors based on this agenda item are appropriate because they have been determined in consideration of the purpose above, the business conditions of the Company, the policy for the determination of content of compensation, etc. for individual Directors of the Company (for details of

the policy, refer to the 98th Business Report of the Company) and other factors.

[Outline of the Allotment Contract]

(1) Transfer Restriction Period

During the period from the date of the allotment of the Company's common shares based on the Allotment Contract until the time immediately following the executive or employee's retirement or resignation from their position within the Company or its subsidiary that is predetermined by the Board of Directors of the Company (hereinafter the "Transfer Restriction Period"), the Eligible Directors may not transfer, create a security interest in, or dispose of the Company's common shares allotted based on the Allotment Contract (hereinafter the "Allotted Shares") (hereinafter, the "Transfer Restriction"). However, if the time immediately following the retirement or resignation is earlier than the date three months after the end of the fiscal year that includes the date on which the Allotted Shares are to be allotted, the end of the Transfer Restriction Period shall be adjusted as necessary to a reasonable extent.

(2) Handling at the time of retirement or resignation

If an Eligible Director retires or resigns from their position as an executive or employee of the Company or its subsidiary that is predetermined by the Board of Directors of the Company before the expiration of the period of service predetermined by the Board of Directors of the Company (hereinafter the "Service Provision Period"), the Company shall automatically acquire the Allotted Shares without consideration, unless there is a justifiable reason for the Eligible Director's resignation or retirement, such as the expiration of their term of office or death.

(3) Lifting of the Transfer Restriction and acquisition without consideration

i. Tenure-based restricted stock compensation

Notwithstanding the provisions of (1) above, the Company shall lift the Transfer Restriction on all the Allotted Shares when the Transfer Restriction Period expires on the condition that the Eligible Director was continuously in the position of an executive or employee of the Company or its subsidiary as predetermined by the Board of Directors of the Company during the Service Provision Period. However, if the Eligible Directors resign or retire from the position stipulated in (2) above before the Service Provision Period expires for a justifiable reason, the number of the Allotted Shares on which the Transfer Restriction is lifted and the time when the Transfer Restriction is lifted will be adjusted rationally as needed. In addition, the Company shall automatically acquire the Allotted Shares on which the Transfer Restriction is not lifted without consideration immediately after the Transfer Restriction is lifted pursuant to the provisions above.

ii. ESG index-based restricted stock compensation

Notwithstanding the provisions of (1) above, the Company shall lift the Transfer Restriction on all the Allotted Shares at the time when the Transfer Restriction Period expires (however, if the Eligible Director resigns or retires from their position as an executive or employee of the Company or its subsidiary which is predetermined by the Board of Directors of the Company after the expiration of the Service Provision Period, at the time immediately following the Eligible Director's resignation or retirement or the day following the day on which the achievement of the relevant performance targets is determined, whichever is later) on the condition that the Eligible Director was continuously in the position of executive or employee of the Company or its subsidiary as predetermined by the Board of Directors of the Company during the Service Provision Period and has achieved the ESG indicators as predetermined by the Compensation Committee, which was entrusted by the Board of Directors of the Company to establish the standards for determining stock compensation. However, if the Eligible Director retires or resigns from their position as stipulated in (2) above before the Service Provision Period expires, the number of the Allotted Shares on which the Transfer Restriction is lifted and the time when the Transfer Restriction is lifted will be adjusted rationally as needed. In addition, the Company shall automatically acquire the Allotted Shares on which the Transfer Restriction is not lifted without consideration immediately after the Transfer Restriction is lifted pursuant to the provisions above. In addition, the Company shall automatically acquire the Allotted Shares without consideration when it is determined that the ESG indicators predetermined by the Compensation Committee, which was entrusted by the Board of Directors of the Company to establish the standards for determining stock compensation, are not achieved.

(4) Handling in cases of organizational restructuring, etc.

Notwithstanding the provisions of (1) above, if a merger agreement in which the Company will become

a disappearing company, a share exchange agreement or a share transfer plan in which the Company will become a wholly owned subsidiary, or other matters concerning organizational restructuring, etc. is approved at a General Meeting of Shareholders of the Company (or the Board of Directors of the Company, if there is no need to obtain approval at a General Meeting of Shareholders for the organizational restructuring, etc.), the Company shall lift, prior to the effective date of the organizational restructuring, etc., the Transfer Restriction on the Allotted Shares, the number of which shall be determined rationally by a resolution of the Board of Directors of the Company mainly in light of the period from the commencement date of the Transfer Restriction Period to the approval date of the organizational restructuring, etc. In the cases set forth above, the Company shall automatically acquire the Allotted Shares on which the Transfer Restriction is still not lifted without consideration immediately after the Transfer Restrictions is lifted.

(5) Other matters

Other matters concerning the Allotment Contract shall be set forth by the Board of Directors of the Company.

On the condition that the Forth Item is approved as originally proposed, the Company plans to revise the restricted stock compensation plan to the same as the above for the Senior Managing Executive Officers and Senior Executive Officers who do not concurrently serve as Directors of the Company.

Proposals by a Shareholder: Items 5-9

Proposals made by a single shareholder (possessing 301 voting rights)

Fifth, Sixth, Seventh, Eighth and Ninth Items concern proposals made by a single shareholder (possessing 301 voting rights).

The name of shareholder: HIDESHO Company, Limited

(72-20 Nishiminato-machi, Kita-ku, Kokura, Kitakyushu-shi, Fukuoka, Japan)

The number of possessing voting rights: 301

Details of these proposals and reasons for them have been translated from the Japanese version of the document that is restated verbatim from the notification received by the Company from the shareholder making the proposals, including literal errors, omitted letters and recognition of facts.

What is a proposal by a shareholder?

The Companies Act provides shareholders with rights to make proposals provided certain requirements are satisfied.

Regarding these proposals, companies are required to post the proposals, regardless of the content, except in the case of a violation of laws and regulations or the Articles of Incorporation.

On this occasion, the five proposals made by a single shareholder are being posted; however, the Board of Directors is **opposed** to all of these proposals.

Please review the opinions of the Board of Directors of the Company on the following page and exercise your voting rights.

Proposals by a Shareholder

Fifth Item

Acquisition of Treasury Stock

1. Details of Proposal

The Company should purchase shares of its common stock, up to a total of 10,000,000 shares and a total acquisition price of 1,000,000,004 yen, within one year from the conclusion of this Annual General Meeting of Shareholders pursuant to Article 156, Paragraph 1 of the Companies Act.

2. Reasons for Proposal

To increase shareholder return and capital efficiency.

Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Company believes that it is necessary to strengthen its management foundation and wishes to increase equity capital and strengthen the financial base to improve its social and economic value, accomplish the 2022-2024 Medium Term Business Plan and realize the Vision for 2030 in the corporate management environment which is becoming increasingly diverse and complex. Buying back shares of the Company using retained earnings will result in a decrease in equity capital which conflicts with the Company's policy.

Therefore, the Board of Directors is opposed to this proposal requesting the Acquisition of Treasury Stock.

Sixth Item

Exemption of Directors from liability

1. Details for Proposal

Deleting Article 26 of the Articles of Incorporation.

2. Reasons for Proposal

The Directors should not always be exempted from liability. Those who do not assume responsibility should not have any authority. Earnings will not increase because the Directors are lacking in responsibility.

Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The purposes of Article 26 of the Articles of Incorporation are to enable the Directors to fully execute their duties and fulfill their expected roles without being excessively daunted and to make it easier for the Company to secure Talents as Outside Directors. The article was approved by the shareholders at the 81st Annual General Meeting of Shareholders held on June 29, 2006.

In accordance with laws and regulations, Article 26 stipulates that the Directors shall be exempted from liability (the exemption is limited to a certain amount) only if they are acting in good faith and no gross negligence is involved. The Directors are not exempted from all liability.

Therefore, the Board of Directors opposes to the proposal for deleting Article 26 of the Articles of Incorporation.

(For reference) Article 26 of the Company's Articles of Incorporation
(Directors' Exemption from Responsibility)

1. With regard to the responsibilities in Article 423-1 of the Companies Act, the Company's Directors (including former Directors), in cases when they have acted in good faith and there is no gross negligence in their acts, may by resolution of the Board of Directors be exempted from responsibility up to a limited figure within the scope permitted by law or ordinances.

2. With regard to the responsibilities in Article 423-1 of the Companies Act, the Company's Outside Directors may conclude contracts with the Company that provide for them to bear responsibility up to a limited figure within the scope permitted by law or ordinances in cases when they have acted in good faith and there is no gross negligence in their acts.

Seventh Item

Amendment of Articles of Incorporation Regarding the Disclosure of the Cost of Capital

1. Details for Proposal

Adding to the Articles of Incorporation the following chapter and article:

Chapter: Disclosure of the Cost of Capital

Article : The Company shall disclose in a report presented to the stock exchange the weighted average cost of capital within the month before the presentation of the report that the Company determines and the basis for the calculation.

2. Reasons for Proposal

We request that management accurately determine the cost of capital. We should also say that the Company is requested to formulate and review its business plans and capital policies, taking the cost of capital into consideration.

Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

To realize the Group Vision (Vision for 2030) based on the Purpose, the Company actively invests to improve its social and environmental value and in financial value and push forward with its transformation to a sustainable company leveraging integrated thinking-based management. The Company uses cost of capital as an important metric when making investment decisions.

However, there are many different views on the data and assumptions used as the basis for the calculation of the cost of capital, and we cannot unequivocally determine the cost of capital. We fear that disclosing a single figure may mislead or confuse shareholders and investors. The Company does not believe that disclosing a single cost of capital and the basis for the calculation, in itself, is very important. The Tokyo Stock Exchange's Action to Implement Management That is Conscious of Cost of Capital and Stock Price request does not include the disclosure of the cost of capital itself. The Company believes that it is important to accurately determine the cost of capital and the profitability of capital while also assessing the current situation in consideration of market valuation, and disclose the assessment and the progress in the improvement plan.

In the 2022-2024 Medium Term Business Plan, the Company dynamically manages its business portfolio. We determine the position of each of our businesses in a quadrant matrix chart by evaluating them in terms of business value (the profitability and efficiency of capital) and expected commercial viability in the future (growth potential). Using the quadrant matrix chart, we allocate management resources—capital expenditures, R&D investments, and human capital—to each business in order of priority to achieve sustainable growth.

The Board of Directors has therefore decided that it is not appropriate to add provisions that set forth the disclosure of the cost of capital to the Articles of Incorporation as proposed in this agenda item and the Board of Directors opposes the proposal.

Eighth Item

Partial Amendment of the Articles of Incorporation

1. Details for Proposal

Adding to the Articles of Incorporation of the Company the following chapter and article:

Chapter: Change to a Decarbonization Company

Article : For long-term success, the Company shall announce initiatives in line with the Paris Agreement, considering risks and business opportunities associated with climate change, and implement them seriously.

2. Reasons for Proposal

The addition of the article to the Articles of Incorporation and the formulation and disclosure of business plans will enable the Company to manage climate change risks appropriately, achieve the net zero emissions target (set by the government) and achieve continuous growth.

Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

Globally, climate change will have a significant impact in the long term, and the Company believes that climate change is one particularly important change in the external environment surrounding its businesses. The Company also believes that climate change and the related changes in society and the economy have created business risks and that appropriately adapting to climate change will enable the Company to strengthen its competitiveness and seize business opportunities. Based on this thinking, the Company started to analyze the medium- to long-term risks and opportunities of climate change in fiscal 2020 using the framework provided in the TCFD recommendations and use the results of the analysis in the development of business strategies. The Company announced its support for the TCFD recommendations in March 2022.

The Company has set energy-related CO₂ emissions targets as stated below. To accelerate its initiatives, the Company uses a carbon-neutrality roadmap and identifies points for improvement through LCA (life cycle assessment). It has introduced an internal carbon pricing system and participates in the Green Transformation (GX) League established by the Ministry of Economy, Trade and Industry.

FY2030: Globally reduce CO₂ emissions by 38% (compared to the FY2013 level)

FY2050: Carbon neutrality (net zero emissions)

As described above, the Company has already announced its initiatives for adapting to climate change and has been implementing them seriously. In addition, the Company does not think that matters related to the execution of business like the matters described in this agenda item should be included in the Articles of Incorporation. The Board of Directors is thus opposed to this proposal.

Ninth Item

Partial Amendment of the Articles of Incorporation (Holding Elections)

1. Details for Proposal

Representative Directors shall be elected in elections by shareholders.

2. Reasons for Proposal

A Representative Director who is elected by the shareholders is motivated, and this will result in the growth of the Company's performance results. As a result, everyone will be happy.

Opinion of the Board of Directors of the Company

The Board of Directors is opposed to this proposal, for the reasons given as follows.

The Board of Directors believes that to build an optimal and agile management structure and enable the Directors and the Board of Directors to fully fulfill their supervisory duties, Representative Directors must be nominated and dismissed by the Board of Directors.

The term of office of the Company's Directors is one year, and they are elected at the general meeting of shareholders every year. Thus, we believe that the shareholders' intentions are reflected in the election of Representative Directors.

The Board of Directors has therefore decided that it is not appropriate to add provisions to the Articles of Incorporation as proposed in this agenda item and the Board of Directors opposes the proposal.

Business Report

(From April 1, 2022, to March 31, 2023)

1. Current State of the Mitsui Kinzoku Group

(1) Business Operations and Results

Economic Overview

During fiscal 2022, the global economy as a whole continued to decelerate due to accelerating global inflation, major countries continuing their monetary tightening policies and the downturn of the Chinese economy caused by the COVID-19 pandemic, despite the progress in the recovery of economic activity.

The Japanese economy was affected by rising raw material prices and energy costs, the sharp fluctuation of exchange rates and other factors amid concerns about the economic slowdown in China and the prolonged situation in Ukraine, despite the normalization of economic activity and signs of an increase in consumer spending and capital investment due to the relaxation of activity restrictions related to COVID-19. As a result, the future of the economy remains uncertain.

The Mitsui Kinzoku Group's Business Environment

In the business environment surrounding Mitsui Mining & Smelting Co., Ltd. and its consolidated subsidiaries (the Mitsui Kinzoku Group), nonferrous metal market prices were generally trending downward and the yen continued to depreciate.

Demand remained weak in the Engineered Materials Group, and the sales volume of mainstay products decreased overall. The sales volume of exhaust detoxifying catalysts increased in the Mobility Group.

	FY2022	FY2021	Change from the Previous Year	
	(Millions of Yen)	(Millions of Yen)	(Millions of Yen)	(Percentage)
Net sales	¥651,965	¥633,346	¥18,618	2.9%
Operating income	12,528	60,737	△48,209	△79.4
Ordinary income	19,886	65,990	△46,103	△69.9
Profit attributable to owners of parent	8,511	52,088	△43,576	△83.7

The Group's Initiatives

In these circumstances, the Group formulated its 2022-2024 Medium Term Business Plan covering the three-year period from fiscal 2022 to fiscal 2024 and launched it in April 2022.

To realize its Group vision (Vision for 2030), "Building new businesses — and the future — with our material intelligence," based on the Group's Purpose, the Group is working on key initiatives for continued growth by building a system for the sustainable increase of corporate value through the implementation of Integrated Thinking-based Management, which aims to achieve both an improvement in social and environmental value and improvement in financial value in each department.

Fiscal 2022 Results

As a result, net sales in fiscal 2022 increased by ¥18,618 million compared with the previous fiscal year to ¥651,965 million due to increases in the Corporate & Other Group despite a decrease in the Engineered Materials Group. Operating income decreased by ¥48,209 million compared with the previous fiscal year, to ¥12,528 million chiefly due to the impact of inventory factors associated with rising energy costs and the fluctuation of nonferrous metal market prices, in addition to a decrease in the sales volume of the Engineered Materials Group, despite favorable factor due to the weaker yen.

Ordinary income decreased by ¥46,103 million year on year, to ¥19,886 million, reflecting a decline of ¥48,209 million in operating income and an increase of ¥1,185 million in investment gains from equity method.

In extraordinary income and losses, the Group recorded ¥2,450 million loss on disposal of property, plant and equipment and ¥1,096 million loss on valuation of subsidiaries and affiliates. In addition, profit attributable

to owners of parent decreased by ¥43,576 million, to ¥8,511 million, reflecting tax expense and loss attributable to non-controlling interests.

Net sales and ordinary income (loss) by each group are the following:

[Net Sales]

Group	2022	2021	2020	2019
	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)	Net Sales (Millions of Yen)

Associated with the changes of the Company's organization on April 1, 2022, the Company has changed its business sectors from Engineered Materials, Metals, Automotive Parts & Components and Affiliates Coordination to Engineered Materials, Metals, Mobility and Corporate & Others. Net sales and ordinary income/loss, etc. in each segment in the previous fiscal year are the figures for the segments after the changes of the Company's organization.

Mitsui Kinzoku ACT Corporation has changed to the method of recording R&D expenses and some indirect costs previously recorded under cost of sales under selling, general and administrative expenses. This change occurred at the beginning of the 97th fiscal year. The change has been retroactively applied to the figures in the 96th fiscal year.

Operating Environment and Results by Each Group

Engineered Materials Group

[Principal Products/Services (As of March 31, 2023)]

Copper foil (MicroThin™, Electro-deposited foil for printed wiring boards, etc.), Battery materials (Hydrogen storage, etc.), Engineered powders (Metal powders for electronic materials, High-purity tantalum pentoxide, etc.), Sputtering targets (ITO, etc.), Ceramics products

In the Engineered Materials Group, the sales volume of MicroThin™ and electro-deposited foils for printed wiring boards decreased due to prolonged inventory adjustments throughout the supply chain, mainly for semiconductor applications.

In addition, the sales volume of metal powders for electronic materials and sputtering targets for displays declined due to a backlash to stay-at-home demand and the impact of production adjustments by major customers.

As a result, sales decreased 17.3% year on year to ¥112,531 million.

Ordinary income also declined 64.3% year on year, to ¥10,706 million, mainly due to a fall in the sales volume of main products.

Metals Group

[Principal Products/Services (As of March 31, 2023)]
Zinc, Lead, Copper, Gold, Silver, Resource recycling

In the Metals Group, while the sales volume of zinc and lead decreased with the impact of production adjustments by automobile manufacturers, net sales rose following a rise in the average metal trading price in Japan, influenced by the depreciation of the yen.

As a result, sales increased 6.4% year on year to ¥256,401 million.

On the other hand, ordinary income declined 75.0% year on year, to ¥9,082 million. This was attributable to the impact of rising energy costs and inventory factors associated with fluctuations in nonferrous metal market prices, despite positive factors to increase income such as the impact of the weaker yen.

Mobility Group

[Principal Products/Services (As of March 31, 2023)]
Catalysis, Automobile door locks, Die-cast products, Powdered metallurgical products

In the Mobility Group, the sales volume of exhaust detoxifying catalysts for motorcycles increased, helped by firm demand in India and Southeast Asia.

The sales volume of exhaust detoxifying catalysts for automobiles also increased due to the start of mass production of newly ordered models for India, despite the impact of production adjustments by automobile manufacturers.

The sales volume of side door latches was on the par with the year-ago level thanks to the recovery of demand in Japan and from India and Southeast Asia, despite weak demand in China.

As a result, sales increased 4.5% year on year to ¥216,468 million.

Ordinary income also increased 31.3% year on year, to ¥3,200 million, reflecting an improvement in the impact of fluctuations in rhodium prices, the main raw material for exhaust detoxifying catalysts, among other products, despite negative factors such as higher steel and resin prices.

Corporate & Other Group

[Principal Products/Services (As of March 31, 2023)]
Rolled copper products, Perlite products, Engineering services for various industrial plants etc.

In Corporate & Other Businesses, net sales increased 8.0% year on year, to ¥128,108 million, due to a rise in the average domestic price of nonferrous metal products associated with the impact of the weaker yen, in addition to a recovery in the environment for orders received for domestic plant construction and firm orders for equipment parts for overseas markets.

However, ordinary income declined 81.0% year on year, to ¥736 million, mainly due to a fall in investment gains from equity method.

(2) Capital Investment

The Mitsui Kinzoku Group invested a total of ¥32,515 million, mainly for the following purposes by each group:

Group	Capital Investment (Millions of Yen)	Contents and Purposes
Engineered Materials Group	¥8,137	Maintaining, renovating and boosting productivity of production facilities for copper foil products etc.
Metals Group	11,852	Maintaining and renovating facilities, boosting efficiency, conserving energy, etc.
Mobility Group	5,696	Maintaining and renovating facilities, boosting productivity of facilities, conserving energy, etc.
Corporate & Other Group	1,479	Maintaining and renovating facilities, boosting efficiency, conserving energy, etc.
Others	5,349	Maintenance and updating of testing and research facilities and the backbone system, etc.
Total	¥32,515	

Note: Unrealized profit on intersegment transactions is deducted in “the others” column.

(3) Funding

For the purpose of redeeming No.17 issuance of unsecured domestic straight bonds, the Company issued its No.22 issuance of unsecured domestic straight bonds amounting to ¥10.0 billion in November 2022.

(4) Research & Development and Resource Development

Research and Development

The Group utilizes its core technologies, such as electrochemistry, powder processing, and composite material processing to offer solutions in the fields of environment, energy, next-generation electronics and life sciences and to contribute to a sustainable society and create new business value. Specifically, the Group is engaged in development of solid electrolyte and electrode material for all solid-state Li-ion secondary batteries, platform carrier needed for the next generation IC device assembly, joining materials for power semiconductors, fluorescent materials for next-generation display, electrode materials for fuel cells and next-generation materials for carbon dioxide absorption/separation technology and catalysts for decarbonized fuel synthesis contributing to the carbon neutral society, etc., as well as development of recycling technology, considering product lifecycle.

Resource Development

The Group has been exploring mining possibilities mainly in the vicinity of Huanzala mine and Pallca mine in Peru.

Note: 1. Earnings (loss) per share is calculated based on the average number of issued and outstanding shares during the term.
2. Mitsui Kinzoku ACT Corporation has changed to the method of recording R&D expenses and some indirect costs previously recorded under cost of sales under selling, general and administrative expenses. This change occurred at the beginning of the 97th fiscal year. The change has been retroactively applied to the figures in the 96th fiscal year.

(6) Important Challenges Ahead

The launch of the 2022-2024 Medium Term Business Plan

The Group formulated its 2022-2024 Medium Term Business Plan for the three-year period starting in FY2022 and launched it in April 2022. To realize the Group Vision (vision for 2030) based on the Purpose, the Group is accelerating its transformation into a sustainable company through the full-scale adoption of Integrated Thinking-based Management, which aims to achieve both improvement in social and environmental value and improvement in financial value.

In terms of "improvement of social and environmental value," the Group assesses the opportunities and risks of each business from the five perspectives of "Environmental impact," "Social capital," "Human capital," "Business model, innovation" and "Leadership, governance" and utilize business sustainability in management decisions.

In terms of "improvement of financial value," the Group focuses as a priority on managing the business portfolio dynamically, unlocking synergies internally and externally, investing in M&As to accelerate growth strategies, and actively resourcing the Business Creation Sector, which houses the Group's R&D and market co-creation functions, to pursue ambidexterity (Note 1).

In fiscal 2022, the starting year of the 2022-2024 Medium Term Business Plan, profit and financial results fell far short of the planned figures due to the effects of rising raw material prices and energy costs and sharp exchange rate fluctuations amid concerns about deteriorating market conditions such as the global semiconductor shortage and economic slowdown in China, as well as the prolonged situation in Ukraine.

In fiscal 2023, the second year of the 2022-2024 Medium Term Business Plan, the Group will continue to implement the following key initiatives without changing its strategy for realizing the Group Vision, although the business environment remains challenging, with the profit and financial targets expected to fall below the original plans.

In the Engineered Material Sector, the Group will improve asset efficiency through the addition of strategies such as the acceleration of growth by expanding business opportunities to realize financial value and creating structures for that purpose, the creation of green products to create social and environmental value, and the acceleration of the reduction of CO₂ emissions, as well as through the optimum allocation of management resources.

In the Metals Sector, the Group will continue to focus on improving copper and precious metal recovery and increasing recovery of by-products as well as on considering possibilities for renewable energy development with a view to achieving the medium-and -long-term targets of establishing a recycling network to become a unique presence essential for the realization of a sustainable society and developing new metal and renewable energy resources.

In the Mobility Sector, the Group will act as a pioneer in mobility, always choosing and creating the best value. To this end, the Group will work on cross-divisional problem solving to promote exploitation in all areas of technology, production and sales (the maintenance of commercial rights) and exploration (creation of new products and businesses).

In the Business Creation Sector, the Group will seek to search for opportunities better and strengthen R&D to ensure that it can create new business "sustainably." It will also make investments and increase staff to pursue commercialization themes in a timely manner according to changes in the environment.

In the Corporate units, the Sustainability Promotion Department was transferred from the Corporate Planning & Control Sector to directly under the President to promote collaboration between the Sustainability Promotion Department and related departments including business units and to further accelerate efforts to increase social value in April 2023. In addition, for the goal of reducing CO₂ emissions 38% globally (compared to fiscal 2013) by fiscal 2030 and achieving carbon neutrality (net zero emissions) by fiscal 2050, we use a carbon-neutrality roadmap, identify improvement points through LCA (life cycle assessment) (Note 2), and have introduced an internal carbon pricing (Note 3) system. This year, we started

to participate in the Green Transformation (GX) (Note 4) League (Note 5) established by the Ministry of Economy, Trade and Industry. The Group will actively participate in the government's discussions regarding the establishment of a system for the full-scale operation of an emissions trading market from fiscal 2026 onward.

In addition, toward Integrated Thinking-based Management, which aims to achieve both improvement in social and environmental value and improvement in financial value, each of the four technology departments, namely the Production Engineering Department, Quality Assurance Department, Environment & Safety Department, and Intellectual Property Department, is working to strengthen its technological base and human resource development, including GX and digital transformation (DX),(Note 4) and the Company has newly established the Technology Sector which oversees the four departments above to create synergy and maximize their performance through collaborative efforts in April 2023.

Although the business environment is challenging, the Group will strive to achieve a transformation to Integrated Thinking-based Management and work together with its stakeholders to promote the well-being of the world by implementing the above initiatives.

- Notes: 1. Ambidexterity: Approach for achieving both "constant improvement in core businesses (Exploitation) and "experiment and action for new businesses (Exploration)."
2. LCA (Life Cycle Assessment: A method of quantitatively assessing the environmental impact of finished goods and services throughout their life cycle (including the collection of raw materials, internal production/processing, use, consumption and the disposal of the finished goods)
3. Internal carbon pricing: A system in which the Company sets a price for carbon dioxide (CO₂) based on its own standards and converts CO₂ emissions to a cost used as a reference for investment decisions related to equipment and development
4. Green transformation (GX): An initiative that aims to balance emission reductions and industrial competitiveness by viewing the global trend to reduce greenhouse gas emissions, a major contributor to climate change, as an opportunity for economic growth.
5. GX League: A forum for companies that aim to achieve sustainable growth in the present and future society to collaborate with companies, governments and academic organizations that are implementing similar initiatives taking on the challenge of GX with a view toward becoming carbon neutral and enabling social change by 2050. It was established by the Japanese government in 2022.
6. Digital transformation (DX): Recreating the nature of operations and business processes through the use of digital technologies

Notes: 1. At the 96th Annual General Meeting of Shareholders held on June 29, 2021, shareholders approved a limit on compensation paid to Directors of ¥720 million per year (not including compensation for their services as employees).

2. At the 96th Annual General Meeting of Shareholders held on June 29, 2021, shareholders approved a resolution on stock compensation for Directors to the effect that the total amount of compensation shall be within ¥36 million per year and the total amount of the Company's common stock to be allocated shall be within 12,600 shares per year (stock shall not be delivered to Outside Directors). Shareholders also resolved that when allocating such stock, the Company shall conclude a contract for allocation of restricted stock with the eligible Directors.

3. At the 96th Annual General Meeting of Shareholders held on June 29, 2021, shareholders approved a limit on compensation paid to Corporate Auditors of ¥180 million per year.

4. At the time of resolution regarding above Notes 1, 2 and 3, there were 8 Directors (including 3 Outside Directors) and 4 Corporate Auditors.

Linkage between the amount of compensation per Directors (excluding Outside Directors) and ordinary income

Regarding compensation per Director (excluding Outside Directors), trends in the amount of compensation for one year from the conclusion of General Meetings of Shareholders, the beginning of the term, are as follows.

- The number of Directors (excluding Outside Directors) for each term is as follows:
 94th term: 4, 95th term: 5 (including a new Director), 96th term: 5 (including two new Directors), 97th term: 5 (including a new Director)

(b) Policy, etc. regarding determination of compensation, etc. for Directors and Corporate Auditors

The Company has the Compensation Committee whose members include Outside Directors, Outside Corporate Auditors, the President, and a Director in charge of Human Resources (or a Senior Executive Officer), etc.

The amount of base compensation, performance-linked compensation and stock compensation for Directors are determined by the Compensation Committee, to which the decision is entrusted by the Board of Directors. Decisions on the amounts are made through deliberations at the Compensation Committee in a fair and transparent manner, within the limit approved at the Annual General Meeting of Shareholders and based on the compensation determination standards. (Please see below for an outline of the Compensation Committee.)

Compensation, etc. for Corporate Auditors is determined by discussions among the Corporate Auditors, within the limit approved at the Annual General Meeting of Shareholders.

The Compensation Committee

The Compensation Committee decided that compensation, etc. for Directors (excluding Outside Directors) shall consist of base compensation, performance-linked compensation as a short-term incentive, and stock compensation as a medium-to-long-term incentive, to enable them to demonstrate management supervisory functions at a high level. In order to ensure competitiveness, appropriateness of the levels of the amounts of compensation is examined through comparison with those of other companies of similar size available as the findings of a compensation survey in which major companies in Japan participate.

- Composition of the Compensation Committee (As of the time when the amount of compensation for the fiscal year under review was determined)

	Name	Position, Duties and Major Occupation
Chairperson	MATSUNAGA Morio	Outside Director
Member	TOIDA Kazuhiko	Outside Director, Chairperson of the Board of Directors
	TAKEGAWA Keiko	Outside Director
	ISHIDA Toru	Outside Corporate Auditor
	INOUE Hiroshi	Outside Corporate Auditor
	NOU Takeshi	President and Representative Director
	YAMASHITA Masashi	Senior Executive Officer, Deputy Senior General Manager of Corporate Planning & Control Sector

- Details of authorities delegated to the Compensation Committee by resolution of the Board of Directors
Establishment, revision and abolition of standards for determining base compensation, performance-linked compensation and stock compensation for Directors
Determination of the base compensation, performance-linked compensation and stock compensation of each Director
- Reason for entrusting authority
For fair and transparent deliberations based on the compensation determination standards
- Details of activities in fiscal 2022
Examined non-financial index (ESG index-based) and Determined introduction of ESG index-based restricted stock compensation
Deliberated and determined Directors' compensation based on the compensation determination standards
- Measures to ensure that the authority of the Compensation Committee is exercised appropriately
The Compensation Committee is composed mainly of Outside Directors, Outside Corporate Auditors, the President, and a Director in charge of Human Resources (or a Senior Executive Officer), etc., and the chairperson is elected from among the Outside Directors. Moreover, if the Board of Directors resolves to make a correction to the financial results post-announcement due to material accounting error or fraud, if a material error or fraud affecting the indicators used as the basis for non-monetary compensation calculation is identified or if other material violation of compliance is identified, the Compensation Committee will deliberate on adjustments to compensation and restrict its payment, or even demand pay back of compensation, when deemed necessary.

a. Policy on base compensation

The base compensation for the President is set, taking into consideration the Company's performance, corporate value, and other factors comprehensively. Base compensation for Directors is calculated depending upon titles, based on the base compensation for the President and by applying a ratio for each title according to responsibilities.

b. Policy on performance-linked compensation

Regarding performance-linked compensation, the amount of performance-linked compensation is calculated using consolidated ordinary income, which the Company considers as a key indicator for evaluating operating results, as the performance indicator. In addition, the amounts of performance-linked compensation for individual Directors responsible for business units are determined through the evaluation of the performance of the business for which the Director is responsible.

More specifically, the Company changed its performance-linked compensation in fiscal 2021, and ¥40 billion, which is 130% of ¥30 billion, the average consolidated ordinary income over the past 10 years excluding the impact of the impairment of Caserones Copper Mine, shall be used as a benchmark (for the compensation percentage in the system design).

The Compensation Committee also sets ¥60 billion, which is the largest recorded profit, as a target, and sets an upper limit of ¥80 billion in the event that the target is exceeded, to ensure that performance-linked compensation serves as an appropriate incentive.

A consolidated ordinary income of ¥65.9 billion in fiscal 2021 is used as a metric for determining performance-linked Compensation in fiscal 2022.

Outside Directors and Corporate Auditors who are uninvolved in business execution do not receive performance-linked compensation.

Linkage of compensation to each consolidated ordinary income when performance-linked compensation at the benchmark (¥40 billion) is 100

c. Policy on stock compensation

The Company introduced a restricted stock compensation plan for Directors (excluding Outside Directors) from fiscal 2021 to serve as an incentive for eligible Directors to aim for continuous growth in corporate value and further enhance value-sharing with shareholders. The total amount of compensation for granting restricted stock to eligible Directors shall be a monetary claim and the total amount thereof shall be within ¥36 million per year and the total amount of the Company's common stock to be issued or disposed of in this process shall be within 12,600 shares per year. The specific timing of payment and allotment to each eligible Director will be determined by the Board of Directors in light of standards established by the Compensation Committee.

Stock compensation will be reviewed by the Compensation Committee in fiscal 2022, and new ESG-related indicators will be added in fiscal 2023. (Please refer to page 47, for further details.)

d. Policy on the composition of compensation, etc.

The composition of compensation, etc. for individual Directors is set, taking into consideration the Company's management strategy, business environment, the degree of difficulty in achieving the target for incentives, etc. and also by referring to the trend of benchmarked companies, utilizing data of an objective compensation survey by an external specialized organization and other factors. The composition of compensation for Directors is as follows:

consolidated ordinary income	~¥0	¥20 billion	¥40 billion	¥60 billion	¥80 billion~
Base compensation	85%	70%	55%	51%	42%
Performance-linked compensation	0%	18%	35%	40%	51%
Stock compensation	15%	12%	10%	9%	7%

Note: The percentage of base compensation, the percentage of performance-linked compensation and the percentage of stock compensation vary because performance-linked compensation varies according to the Company's performance.

e. Policy on the timing of payment of compensation, etc. and conditions

Base compensation and performance-linked compensation are paid monthly in cash.

The stock compensation system is designed so that the period during which transfer of the allocated shares is restricted expires on the date of retirement and, even after retirement, sale of the shares is not permitted for a period of one year to prevent insider trading. Moreover, if an eligible Director retires without just cause, the Company shall automatically acquire the allocated shares at no cost irrespective of the elapsing of the period.

The details of compensation, etc. for individual Directors in fiscal 2022 are judged to be in accordance with the policies from a. to e. above because the Board of Directors determined the details after fair and transparent deliberation based on the compensation determination standards by the Compensation Committee.

The Compensation Committee has decided to introduce ESG-related indicators for the compensation of Directors (excluding Outside Directors) so that the Company can continue to contribute to society and remain an essential presence in the future.

More specifically, the new ESG index-based restricted stock compensation, which will be added subject to the achievement of ESG indicators, will be introduced, in addition to the already introduced tenure-based restricted stock compensation. In both cases, continued service is a condition for lifting the transfer restrictions. ESG indicators are those related to the reduction of greenhouse gases, the promotion of job satisfaction and diversity and compliance.

Based on the system design, the ratio of the total of tenure-based restricted stock compensation and ESG index-based restricted stock compensation to total compensation will increase from the current 10% to 15%. However, if all ESG indicators set by the Compensation Committee are not achieved, the stock compensation will be reduced from the fiscal 2022 level.

Percentage of stock-based compensation based on consolidated ordinary income of 40 billion yen

Mode of Compensation	Status of ESG indicator achievement and share of equity compensation (total of Tenure-based and ESG index-based) in total compensation		
	Target achieved	Partially achieved	Missed all targets
Stock-based compensation	15%	10% (Same level as FY2022) ~12.5%	7.5% (Tenure-based only, total stock-based compensation will decrease compared to FY2022)

As a result of the review of the policy on stock compensation, the compensation percentages for Directors (excluding Outside Directors) will be as follows when consolidated ordinary income of ¥40.0 billion and all ESG KPIs are achieved: base compensation: 53%, performance-linked compensation: 32%, and stock compensation: 15%. However, since performance-linked compensation will fluctuate depending on the Company's performance, the percentages of base compensation, performance-linked compensation and stock compensation will fluctuate within the following ranges.

consolidated ordinary income	~¥0	¥20 billion	¥40 billion	¥60 billion	¥80 billion~
Base compensation	78%	65%	53%	48%	40%
Performance-linked compensation	0%	17%	32%	38%	48%
Stock compensation	22%	18%	15%	14%	12%

(d) Notification of Independent Directors and Independent Corporate Auditors

None of the Company's Outside Directors and Outside Corporate Auditors has interests with any particular party from the Company, including its management, and none of them has conflicts of interest with general shareholders. The Company has notified the Tokyo Stock Exchange that all five of its Outside Directors (MATSUNAGA Morio, TOIDA Kazuhiko and TAKEGAWA Keiko) and Outside Corporate Auditors (ISHIDA Toru and INOUE Hiroshi) are Independent Directors and Independent Corporate Auditors of the Company.

(3) Matters Related to the Independent Auditing Firm

1. Name of the firm: KPMG AZSA LLC

2. Total Compensation, etc., paid to the firm

Classification	Compensation based on audit and attestation services (Millions of Yen)	Compensation based on non-audit services (Millions of Yen)	Amount (Millions of Yen)
The Company	¥125	¥1	¥127
The Company's subsidiaries	49	0	49
Amount	¥174	¥1	¥176

- Notes: 1. Since the contract between the Company and the auditing firm does not distinguish between the audit required under Japan's Companies Act and the audit required under the Financial Instruments and Exchange Law, the above figures also include the cost of the audit required under the Financial Instruments and Exchange Law.
2. The Board of Corporate Auditors of the Company reviewed the independent auditing firm's audit plan for fiscal 2020, the status of performance of duties in the previous fiscal year, the basis of calculation of the estimated amount of compensation, etc. by means of necessary documents obtained from the independent auditing firm and relevant internal departments as well as interviews. As a result, the Board of Corporate Auditors gave consent pursuant to the Companies Act Article 399, Paragraph 1 with regard to compensation, etc. for the independent auditing firm for fiscal 2020.
3. Among the Company's material subsidiaries, the following were legally audited by a certified public accountant or accounting firm, other than the Company's audit firm, with the corresponding qualifications in a foreign country: Taiwan Copper Foil Co., Ltd.; Mitsui Copper Foil (Malaysia) Sdn. Bhd.; Mitsui Electronic Materials Co., Ltd.; Mitsui Kinzoku Components India Private Limited; GECOM Corp.; Mitsui Siam Components Co., Ltd.; Mitsui Components Guangdong Limited; and Mitsui Kinzoku ACT (Shanghai) Management Co., Ltd.

3. Details of Non-audit Services

The Company entrusts the independent auditing firm with "the preparation of a comfort letter associated with the issuance of corporate bonds," which are services outside the professional responsibilities provided under the Certified Public Accountants Act Article 2, Paragraph 1 (non-audit service).

In addition, subsidiaries entrust the independent auditing firm with agreed procedures for application forms for reduction of or exemption pursuant to the Act on Special Measures Concerning Procurement of Electricity from Renewable Energy Sources by Electricity Utilities.

4. Policy regarding decisions related to dismissal and non-renewal of contract with the independent auditing firm

When the provisions of the Companies Act Article 340, Paragraph 1 are deemed to be applicable to the auditing firm, the Board of Auditors may dismiss the firm with the consent of all the Corporate Auditors. The Board of Auditors determines the content of a proposal to be submitted to a General Meeting of Shareholders concerning non-renewal of the contract with the auditing firm at the Company's convenience. In addition, when it is deemed that the Company cannot continue the contract with the auditing firm for reasons attributable to the auditing firm, the Board of Auditors determines the content of a proposal to be submitted to a General meeting of Shareholders concerning dismissal or non-reappointment of the auditing firm.

In either case, the Board of Auditors determines the content of a proposal to be submitted to a General Meeting of Shareholders concerning selection of a new independent auditing firm.

(4) Systems for Ensuring Appropriate Business Operations and Overview of the Status of Operation of Such Systems

The decisions as to the Company's systems for ensuring that the execution of duties by the Directors is in compliance with relevant laws and regulations and the Company's Articles of Incorporation and other systems for ensuring the proper conduct of the Group's activities and the status of operation of such systems are outlined below.

1. Systems for ensuring that the execution of duties by the Directors and employees of the Company and its subsidiaries is in compliance with relevant laws and regulations and the Company's Articles of Incorporation

- 1) To ensure that the conduct of business activities by the Directors and employees of the Company and

- its subsidiaries is in compliance with relevant laws and regulations and the Company's Articles of Incorporation, the Company clarifies and promotes its compliance system by instituting its "Code of Conduct," which Directors and employees are required to observe, and internal regulations.
- 2) The Company clearly defines the authority of the Directors through the issuance of internal regulations, including "Regulations for the Board of Directors (Torishimariyaku-kai kisoku)." Also, by appointing Outside Directors who have a high degree of independence, the Company increases transparency and creates a framework to ensure that the Directors execute their duties appropriately.
 - 3) In addition, the Company conducts internal audits of accounting, tax affairs, legal affairs, safety, quality, facilities, the environment, hygiene, ICT, etc. for the purpose of maintaining soundness of overall internal control among others.

[Overview of the status of operation]

In order to thoroughly communicate the "Code of Conduct" worldwide, which specifies values and action guidelines that ought to be shared by everyone in the Group, it is translated into various languages, and training by using the Compliance Guidebook is continued at all bases, including overseas bases, to ensure adherence to the Code of Conduct. In the fiscal year under review, the Company held training sessions, including training sessions to increase employee awareness of the Code of Conduct, at its domestic business sites and in France, Morocco and Indonesia.

Each Executive Director reports important matters at the meetings of the Board of Directors, which includes three highly independent Outside Directors. Outside Directors have been appointed the chairperson of the Nomination Review Committee and of the Compensation Committee, respectively, thereby enhancing independence and objectiveness in these committees. Moreover, during the fiscal year under review the Company appointed an Outside Corporate Auditor as a member of the Nomination Review Committee and the Compensation Committee and, as a result, independence and objectiveness in these committees were further enhanced.

The Internal Audit Committee directly reports to the Board of Directors, and has an Outside Director appointed as the chairman of the committee. The Internal Audit Committee determines the policy and annual plan for internal audits, and the Internal Audit Department conducts audits based on that policy and plan. In addition, The Internal Audit Committee evaluates the results of audits conducted by the Internal Audit Department and other departments after the end of each fiscal year and confirms the status of corrective measures in response to the findings and reports them to the Board of Directors.

2. Systems for storing and safekeeping of information related to the execution of the duties of the Directors

For information related to the execution of the duties of the Directors, the Company has prepared, stores, and keeps in custody such information according to laws and regulations, the "Regulations for the Board of Directors (Torishimariyaku-kai kisoku)," "Information Management Rules (Jouhou kanri kisoku)," "Regulations Regarding Documentation (Bunsho kisoku)," regulations concerning ICT governance, and other internal regulations.

[Overview of the status of operation]

Information materials on agenda of meetings of the Board of Directors and their minutes are retained permanently, whereas the statutory retention period for such documents is 10 years. Documents of important meetings related to business execution are retained for 10 years or permanently depending upon the meeting bodies. The Company has appointed the Senior General Manager of the Corporate Planning & Control Sector as the person responsible and is promoting the implementation of ICT governance and information management across the Mitsui Kinzoku Group.

3. Regulations and systems concerning the management of losses and hazards of the Company and its subsidiaries

To prevent the materialization of risks related to the execution of business activities of the Company and its subsidiaries and to respond to risks that have already materialized, based on its "Risk Management Regulations (Risk management kisoku)," the Company designates organizational units in charge of each type of risk to monitor and evaluate the risks that may arise in the business activities of the Company and subsidiaries, decides on policies for risk management, and implements measures to deal with risks when they materialize.

The Company establishes “Regulations for Emergency Responses (Kinkyu-jitai hasseiji no taiou ni kansuru kisoku)” to protect human lives and assets and to swiftly recover and continue business in the event of a large disaster.

[Overview of the status of operation]

The Company has set up a unit dedicated to risk and crisis management in the General Affairs Department for the purpose of minimizing, through risk management, the impact and damage suffered by the Company and its subsidiaries from the events that pose threats to assets and earnings of the Company and its subsidiaries. In the fiscal year under review, as risk mitigation activities in the 2022-2024 Medium Term Business Plan, the Company reviewed changes in the risk map, its risk mitigation activities and their effectiveness based on the analysis of risk investigations conducted during the formulation of the 2022-2024 Medium Term Business Plan, the assessment of the situation and status management using the risk map based on the analysis, and also in consideration of changes in society.

Moreover, the Group decided on policies for risk management and implemented measures to deal with risks when they materialize, including training for incident management in the event of an emergency and improvement of various manuals, thereby promoting risk management.

4. Systems to ensure that the Directors of the Company and its subsidiaries execute their duties efficiently

As the basis for systems that ensure the Directors execute their duties efficiently, the Board of Directors holds a regular meeting once a month, and at other times as necessary. In addition, the Company determines assignment of responsibilities for management and clarifies the approving authorities, including those of subsidiaries, and transfer of authority to executive departments, with an aim to enhance the efficiency of decision-making. Also, through the introduction of the Executive Officer system, the Company endeavors to accelerate the execution of business activities.

[Overview of the status of operation]

The chairperson of the Company's Board of Directors is determined by an election with the Directors voting to realize the separation of the management oversight functions and the business execution functions. Since June 2022, the chair has been an Outside Director. In the fiscal year under review, 13 Board of Directors meetings were held. A regular meeting was held every month, and an extraordinary meeting was held in May 2022. Prescribed important matters are discussed and resolutions are passed in accordance with authorities such as approving authorities that stipulate the assignment of responsibilities for management, the Board of Directors deliberated and made decision on necessary important matters. The Company ensures that decisions about particularly important matters are made appropriately and efficiently by giving the Board members opportunities to discuss particularly important matters before they deliberate them at meetings of the Board of Directors. In accordance with authorities such as approving authorities that stipulate the assignment of responsibilities for management, the Board of Directors deliberated and made decision on necessary important matters.

The authority has been delegated to executive units, as necessary, by reviewing the classification of responsibilities concerning management to enhance efficiency of decision-making. Meanwhile, the Board of Directors periodically receives reports on the status of execution of duties from each Executive Officer and monitors the status of business execution. Moreover, a meeting was held between Outside Directors and the independent auditing firm to exchange views and share information.

5. Systems for reporting to the Company of matters related to the execution of duties by Directors of the Company's subsidiaries

Directors, Corporate Auditors, and the responsible department shall receive reports on the status of execution of duties by Directors of the Company's subsidiaries in accordance with the “Regulations for the Management of Subsidiaries and Affiliates (Kankei-gaisha kanri kisoku)” etc.

[Overview of the status of operation]

Directors of the Company's subsidiaries report the status of execution of their duties in accordance with the “Regulations for the Management of Subsidiaries and Affiliates” at periodic meetings of business units.

Units of the headquarters report to Corporate Auditors, as necessary, about the information they obtained on the status of execution of duties by Directors of the Company's subsidiaries.

6. Matters concerning employees who are to assist the duties of Corporate Auditors when Corporate Auditors request assignment of such employees and matters related to ensuring the independence of such employees from Directors and effectiveness of instructions given by Corporate Auditors to such employees

- 1) Under the Company's "Regulations for Company Organization Systems (Kaisha shokusei kisoku)," the Company establishes an Auditor Office and assigns employees to assist the Corporate Auditors in the execution of their duties. In addition, the selection of these employees is made with reference to the opinions of the Corporate Auditors.
- 2) The employees who are assigned to assist the duties of Corporate Auditors shall assist Corporate Auditors in accordance with the "Regulations for Company Organization Systems." At the meetings of the Board of Auditors, such employees shall receive instructions from Corporate Auditors, and also shall report on the progress of matters that they were instructed to address, and provide information.

[Overview of the status of operation]

Regarding employees who are to assist the duties of Corporate Auditors, staff of the Auditor Office are selected from headquarters organizations in reference to the opinions of the Corporate Auditors. Auditors Office Liaison Meetings are held monthly for which the Auditor Office serves as the secretariat and where the staff of the Auditor Office receive instructions from Corporate Auditors and provide Corporate Auditors with information on the progress of matters that they were instructed to address and other information.

7. Systems for Directors and employees to report to the Corporate Auditors; systems for Directors, Corporate Auditors, and employees of the Company's subsidiaries and for persons who received reporting from such persons to report to the Corporate Auditors; and other systems regarding reporting to the Corporate Auditors

- 1) When the Directors and employees of the Company and Directors, Corporate Auditors, and employees of the Company's subsidiaries discover facts that may cause serious losses to the Company, or when other events occur concerning the matters requiring reporting specified by the Board of Auditors, they shall report to Corporate Auditors.
- 2) Upon auditing of subsidiaries by the Corporate Auditors, Directors, Corporate Auditors, and employees of the Company's subsidiaries shall report the status of operations and other matters required by the Corporate Auditors.
- 3) Regarding the details of the reporting made via the whistleblowing system, a system shall be setup for promptly sharing the information with the Corporate Auditors.

[Overview of the status of operation]

For full-time Corporate Auditors, in addition to their attendance at the meetings of the Board of Directors, opportunities are ensured for them to attend important meetings related to business execution. Through these meetings, matters are reported and information is provided to Corporate Auditors. Full-time Corporate Auditors and Outside Corporate Auditors also visit the Company's subsidiaries to conduct auditing whenever necessary, and receive reports on the status of operation as well as matters requested by the Corporate Auditors. In the fiscal year under review, the effects of COVID-19 were limited, and Corporate Auditors implemented visiting domestic and overseas business sites of the Company and subsidiaries to carry out audits. They also carried out remote audits using online meetings, which became commonplace during the COVID-19 pandemic.

The Company is developing a whistleblowing system where information is promptly shared with the Company's Corporate Auditors under the Regulation for Whistle-Blowing Systems.

8. Systems to ensure that persons who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting

The Company shall prohibit detrimental treatment of the Directors and employees of the Company and Directors, Corporate Auditors, and employees of the Company's subsidiaries who reported to the Corporate Auditors because of the reporting.

[Overview of the status of operation]

It is announced on the Company's website and stated in the Compliance Guidebook that persons

who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting. The policy that persons who reported to the Corporate Auditors will not receive detrimental treatment because of the reporting is also communicated in internal training and on other occasions.

9. Matters concerning procedures for advance payment or reimbursement of fees arising in connection with the execution of duties by the Corporate Auditors and other policies regarding handling costs or obligations arising in connection with the execution of such duties

When the Corporate Auditors request advance payment or reimbursement of expenses for their execution of duties, based on deliberation by the responsible department the Company shall make advance payment of or reimburse such expenses swiftly except in the case that such expenses or obligations are proved to be unnecessary for the execution of duties by such Corporate Auditors.

[Overview of the status of operation]

At the beginning of each fiscal year, the Company sets aside a budget for expenses to be incurred based on the action plan of the Corporate Auditors for the year. The Company has established a rule that allows the Corporate Auditors to request additional budget if expenditures exceeding the predetermined budget for expenses are necessary.

10. Other systems to ensure that audits by the Corporate Auditors are performed effectively

The Representative Directors and Corporate Auditors meet periodically to exchange opinions. The Corporate Auditors may attend important meetings to exchange information with Directors and employees thoroughly. Moreover, a system is in place that enables close collaboration between Corporate Auditors and the Internal Audit Department for audits.

[Overview of the status of operation]

In the fiscal year under review, meetings to exchange opinions were held twice between the Representative Directors and Corporate Auditors. Further, the Company is providing opportunities for a more multi-faceted exchange of information. Two meetings were held where Outside Directors, Representative Directors and Corporate Auditors met. Corporate Auditors also held meetings seven times to exchange opinions with Outside Directors, Executive Officers and other management executives.

Corporate Auditors interviewed the independent auditing firm as necessary to share information. Corporate Auditors attend the Internal Audit Committee as observers and share the audit plan and audit results.
